2025-2027 POLAR EXPEDITIONS

ANTARCTIC PENINSULA & SOUTH SHETLAND ISLANDS | FALKLAND ISLANDS
SOUTH GEORGIA | SVALBARD | GREENLAND | ARCTIC CANADA

Welcome to the adventure of a lifetime

For almost 30 years, the polar regions have been at the heart of our travelling formula. Our journey began with a moment of awe in Greenland during the 90s. Standing atop Great Baleen, overlooking vast ice and wilderness, I realized I wanted to share the wonder of the world's most remote regions with others.

What started with chartered vessels in the Arctic in the mid 90s has evolved into pioneering expeditions aboard two of the most advanced and sustainable ships at sea—Ocean Victory and Ocean Albatros. Yet, our core passion remains unchanged: creating authentic adventures that connect our guests to the raw power of nature and the spirit of exploration.

As a Scandinavian company, we bring Nordic hospitality, environmental care, and exceptional quality to every voyage. Being family-owned means we care deeply about creating a welcoming experience where guests feel at home, forming bonds with fellow explorers and our global team.

At Albatros Expeditions, we don't just offer trips—we offer the chance to escape the ordinary, explore rarely accessed destinations, and create lifelong memories. Thank you for letting us share this journey with you.

ON BOARD THE MOST ECO-FRIENDLY EXPLORATION VESSELS

Sustainability and eco-tourism have always been important aspects of the Albatros Travel Group identity. Our vessels, Ocean Victory and Ocean Albatros were built with consideration towards the environment and has the lowest carbon emission per passenger in the expedition cruise industry.

Albatros Expeditions is proud to be a supporting and active member of both the Association of Arctic Expedition Cruise Operators (AECO) and the International Association of Antarctica Tour Operators (IAATO). These two member organizations exist to advocate and promote the practice of safe and environmentally responsible private-sector travel to the Polar Regions. Members challenge each other to do better and have minimal impact on these fragile environments.

In effort to keep our oceans clean and as unpolluted as possible, we have initiated a green initiative on-board our Albatros Expedition cruises.

On our Albatros Expeditions cruises, we organise onboard fundraising programs for projects that have a global or local positive impact on the areas we operate. These programs include raffles, auctions and donations.

Our expedition team will present the organisations we are collaborating with on your voyage. Visit our website to learn more about these organisations and our CSR program.

OBSERVATION PLATFORMS & BIRD'S-EYE VIEW

ENRICH YOUR EXPEDITION WITH SPACIOUS OBSERVATION AREAS

The Ocean Victory and Albatros vessels prioritize the ultimate expedition encounter through well-located observation decks. These decks afford extensive, unimpeded spaces that guarantee the finest vantage points for witnessing polar landscapes.

Our ships redefine the expedition journey with swift zodiac embarkation procedures and exceptional observation zones, inclusive of distinctive hydraulic platforms and ample observation deck expanse. Guests are invited to relish the breathtaking Deck 9 viewing platform along with forward-positioned hydraulic observation platforms.

These features seamlessly bring our guests into closer proximity to the grandeur of unspoiled nature by providing enhanced, more intimate, and wholly unobstructed panoramas of icebergs, avian life, and marine giants, allowing them to immerse themselves in the splendor of untouched wilderness. The combination of zero-speed stabilizers, dynamic positioning ("virtual anchoring"), and 5 zodiac loading platforms mean that our guests can be in their zodiacs faster than any other ship of comparable size. Not only will guests have more time to enjoy exploring off the ship, but also we can react faster to unexpected wildlife encounters.

"The next infinity class vessels delivered from a series of newbuilds, offer a one-of-a-kind and complete immersive experience. Technologically advanced, with a unique design and beautiful European interiors, these vessels remain true to what Expedition Cruising should be all about."

- Søren Rasmussen, Founder & Owner, Albatros Expeditions

"The main restaurant on both Ocean Victory and Ocean Albatros provides a delightful blend of à la carte and buffet choices. Additionally, both ships boast a top-deck Panorama Restaurant, where guests can enjoy a delicious and exciting tasting experience with meals cooked directly at their table on hot lava rocks."

- Cæcilie Willumsgaard, Board Member of Albatros Expeditions

DINING HALLS & SPECIALITY RESTAURANTS

OUR CAREFULLY DESIGNED MENU IS CURATED FOR THE BEST DINING EXPERIENCE, WITH A FOCUS ON FRESHNESS AND DIVERSITY.

Onboard Ocean Victory and Ocean Albatros, you will find kitchen professionals and chefs who take great pride in creating gastronomic experiences, satisfying your tastebuds.

When the first explorers began their undertakings, they had little choice and even less variety in their nourishment options in their diet. Dining at the some of the remotest parts of the world was not a delicacy, but a duty necessary for survival. Luckily for us, today is another story. Meals are served in our bright and spacious restaurants, surrounded by wonderful views.

Dinner always starts with delicious hot soups, cold cuts and crisp, fresh salads. Several choices of entrées are offered each evening. To accommodate different tastes and dietary requirements, guests can choose from a selection of meat, fish and vegetarian options.

After dinner, freshly prepared desserts, including ship-made ice cream or cakes... A great way to end a meal and satisfy any sweet tooth!
