WOLF'S FANG | ANTARCTICA

On this 6-day experience you will fly into the interior of Antarctica on a private jet and stay at our brand new camp - Wolf's Fang.

The highlight of the trip is to summit an Antarctic Peak in the Holtedahl mountain range. This is pioneering adventure at the end of the world.

Manas M

Often tipped as one of the most beautiful cities in the world, Cape Town is home to award-winning vineyards and stunning ocean vistas.

We will host a safety briefing the day before your scheduled flight where our staff will explain all kit requirements, assist with any last-minute preparations and update you as to the latest weather forecasts in Antarctica.

## FLIGHTS

FLIGHT TO WOLF'S FANG, ANTARCTICA: 5 hours

MAXIMUM CLIENTS: 12

AIRCRAFT: Gulfstream 550 or private aircraft

### TRAVEL SOUTH AFRICA TO ANTARCTICA

We travel in uncompromised comfort across the mighty Southern Ocean in a private jet or Airbus. During the 5-hour flight, the African night turns to day as we soar over thousands of icebergs and pass into 24 hours of continuous sunshine.

Destination: Wolf's Fang Runway.

## WOLF'S FANG RUNWAY

Our runway is overlooked by one of the most magnificent and iconic mountains on the entire continent, so named 'Wolf's Fang' by the early Norwegian explorers. Once on the ground, you will be surrounded by kilometer-high monoliths of rock that rise vertically from the ice.

71º 39' 43" S 9º 29' 03" E

-----

Wolf's Fang is made up of 6 guest sleeping tents, a large communal tent and a newly refurbished washroom facility. All guest areas are heated for your comfort.

The communal tent with adjoining kitchen houses a cosy lounge with rich leather finishes and a dining room where guests are served all meals. Our chef prepares freshly baked bread every morning before the day's activities and each dinner is signed off with a night cap of your choice.

Service States

The Wolf's Fang range and its surrounding nunataks are the perfect playground of ice and mountains. Scale walls of ice with the help of axes and crampons, explore windswept peaks where few humans have ever walked and for the more adventurous, traverse to an overnight remote camp where you will camp out on the glacier just like the explorers of old.

"The logistics that support this 12-guest refuge would test a space mission."

Between rugged mountain ranges and spectacular frozen waves of ice, our guides will expand your horizons and push you only as far as you want to go. Our philosophy is simple - do as much or as little as you like. After all, it's your adventure!

The Holtedahl Mountains are home to some of Earth's most spectacular peaks - a climber's paradise. We will traverse to the base of these mountains where our guides will have set up the camp for the expedition. After a night spent out on the glacier we will take advantage of the 24-hour sunlight and trek into the mountains to summit a peak where few humans have ever stood before.

## YOUR SAFETY

For all its beauty, Antarctica can be a challenging environment, with low temperatures, strong winds and high altitudes. We believe the best way to protect you is through our staff and we are absolutely uncompromising about the experience and expertise of our people.

All our mountain guides have completed the strenuous 5-year UIAGM qualification, while each camp has its own fully-qualified trauma doctor and accompanying medical kits. Our chief pilot has 10 years of experience flying in Antarctica with over 18,000 hours of logged flight time.

Tracking, satellite communications and mutual Search & Rescue agreements are all part of White Desert's comprehensive safety policies. Furthermore, by operating our own aircraft, we also have the speed and flexibility to arrange an evacuation back to Cape Town in the unlikely event that one should become necessary.

## ENVIRONMENT

White Desert believes that responsible tourism is a genuine force for good and supports Sir David Attenborough's stance on the transformative power of wilderness travel: "No one will protect what they don't care about, and no one will care about what they have never experienced".

**Camp -** As a temporary eco-camp, our whole operation can be dismantled and removed without a trace.

**Carbon neutral -** White Desert was the first aviation operator in Antarctica to be entirely Carbon Neutral, a status the company has held since 2007.

Waste management - We keep waste to a minimum by repackaging all consumables before we bring them to Antarctica, while at the end of the season, all solid waste is shipped back to South Africa for recycling or responsible disposal.
