2026

Welcome to Aurora's **Jewels of the Arctic** expedition.

Explore Svalbard, a world of near-endless daylight, where polar bear sightings quicken your pulse, walrus haul out on sea ice and guillemot cries echo from towering cliffs. In East Greenland, sail deep into the world's largest fjord, Scoresbysund, visit Ittoqqortoormiit, one of the world's remotest Inuit settlements, cruise among iridescent icebergs sculpted into fantastic shapes, and walk across tundra blooming in brightly coloured flowers.

Highlights

WITNESS A SOLAR ECLIPSE - A TRULY UNFORGETTABLE EXPERIENCE.

WATCH ARCTIC FOX HUNT BENEATH TOWERING CLIFFS THAT ARE HOME TO ENORMOUS COLONIES OF GUILLEMOTS AND FULMARS

IN SVALBARD, PUSH THROUGH PACK ICE, SEARCHING FOR POLAR BEARS AND RINGED SEALS

QUIETLY APPROACH MUSK OXEN AND REINDEER ON TUNDRA WALKS

ZODIAC-CRUISE ALONG VAST GLACIAL FRONTS AND INTO ØFJORD AS SUNSET PAINTS THE SURROUNDING 2,000-METRE (6,562-FEET) WALLS A VIBRANT PINK

Aurora Expeditions operates in remote and challenging environments, and in the spirit of expedition travel, we encourage you to adopt a flexible and adventurous attitude when joining our voyages. This itinerary is a guide only and is subject to change due to weather, sea state and other conditions beyond our control.

Itinerary

Day 1 Arrive in Oslo

Having made your way to Oslo. Upon arrival at your included hotel, please visit the Aurora Expeditions hospitality desk to collect your luggage cabin tags and to speak with our ground operations team, who may have information to share with you about pre-embarkation or to provide you with information about where to dine, withdraw cash or purchase last minute items from a local pharmacy or supermarket.

The remainder of your time is at leisure. All meals today are at your own expense.

Accommodation: Radisson Blu Airport Hotel, Oslo Gardermoen

Day 2 Fly to Longyearbyen, embarkation

This morning, please ensure your cabin luggage is fitted with cabin tags clearly labelled with your name and cabin number. Enjoy breakfast at the hotel before transferring to the airport for our charter flight to Longyearbyen for embarkation. Any valuables or personal items should be kept on you throughout the day.

The charter flight is scheduled to depart at 11:20 for Longyearbyen and arrive at 14:30.

In Longyearbyen, explore the town on a guided tour. After the tour, you will be transferred directly to the pier to embark in the late afternoon. Settle into your cabin before attending important safety briefings and enjoy the thrill of departure as we 'throw the lines' and set sail.

Note: the excursion is contingent on the arrival time of our charter flight to Longyearbyen.

Svalbard offers arctic wilderness at its best. The members of our experienced Expedition Team, who have made countless journeys to this area, will use their expertise to tailor our itinerary, choosing the best options based on the prevailing weather, sea-ice conditions and opportunities for wildlife encounters.

Phenomenal fjords, magnificent mountain ranges, and a polar desert rich in fossils set the stage for heroic tales of early exploration. See walrus hauled-out on sea ice or on beaches. On land, we stretch our legs on walks across tundra carpeted in brightly coloured wildflowers. We visit towering cliffs noisy with nesting guillemots and puffins, and scree slopes that hold Svalbard's largest little auk colonies.

If you have chosen an optional activity such as kayaking, you will have an opportunity to enjoy that activity when conditions allow. For those who are enthusiastic to participate in a polar plunge, as soon as conditions are suitable, you will hear the announcement to prepare for an exhilarating dip – a memory you will savour for years to come.

Days 6-7 At Sea

As we sail towards the coast of East Greenland, we may encounter whales feeding in the rich waters of the north. As we approach East Greenland, be prepared to encounter more pack ice and perhaps spot seals and a variety of seabirds, including the northern fulmar and Brünnich's guillemot.

The strong, icy currents have isolated East Greenland from the Polar Basin, attracting large numbers of fish, seals and whales. Climatic conditions and the concentration of ice in the vicinity often create thick morning fog that only vanishes in presence of the midday sun. Our experts will inform and entertain us with fascinating discussions on plants, animals, ice and heroic tales of exploration.

Days 8-13 East Greenland

In the coming days, a host of choices are available to us, and depending on ice and weather conditions, the east coast of Greenland is ours to explore. Our experienced Expedition Team, who have made countless journeys to this area, will use their expertise to tailor our itinerary on a day-to-day basis. This allows us to make best use of the prevailing weather, ice conditions and encounters with wildlife. We generally attempt up to two landings or Zodiac excursions per day, including cruising along spectacular ice cliffs, following whales feeding near the surface.

East Greenland contains some of the Arctic's most impressive scenery. Deep fjords and narrow channels, flanked by sharp ice-clad peaks up to 2,000 m (6,562 ft) high. Gigantic icebergs calved from glaciers drift throughout the fjord system creating breathtaking scenery. The landscape is filled with multi-coloured tundra home to musk oxen and arctic hare. Throughout the area are ancient Thule archaeological sites, historical trappers' huts, and modern Inuit hunters' cabins.

A highlight is a visit to the Inuit village of Iltoqqortoormiit, the most isolated and northernmost permanent settlement in the region, with approximately 500 inhabitants. Here you can explore the village, the fascinating museum or sit in the beautiful Lutheran Church. The locals are friendly, and from underneath their Arctic fox-fur jackets, the shy young children are keen to say hello and practice their English. The community boasts an excellent museum, gift shop, an abundance of Greenlandic sled dogs, and the opportunity to meet Inuit people.

Thanks to the fertile volcanic soil mountains that protects areas from the strong winds, the area is rich in wildlife. You may spot everything from muskox and arctic foxes to mountain hares and even reindeer near the fjord. Look skyward and you could catch a glimpse of birds including common eider, glaucous gull, black-legged kittiwake, northern fulmar, and arctic terns gracefully gliding or plunging into icy bays for zooplankton.

The voyage builds with excitement as we set sail towards our prime viewing position within the totality path. Enjoy lunch onboard while our crew expertly navigates the ship towards the perfect spot to witness the

Relax and relive this unforgettable experience with your fellow travellers over a celebratory dinner. *Note: subject to weather, cloud cover, sea state, ice and other conditions beyond our control.*

Continue to explore the fjord systems in Greenland, each one encompassing several smaller fjords and sounds. Thanks to the fertile volcanic soil and the surrounding mountains offering protection from strong winds, the area is rich in wildlife. You may spot everything from musk ox and arctic foxes to mountain hares, and even reindeer, near the fjord. Look skyward and you could catch a glimpse of birds, including the glaucous gull, black-legged kittiwake, northern fulmar, common raven and common eider.

There are great hiking options in the area, where flowering tundra plants, scattered bones of whales and muskox from centuries of hunting by the Inuit and fumaroles can be found. These are areas where heated groundwater boil to the surface creating bubbling pools and mineral formations as the water reacts with the atmosphere.

The area also boasts some of the most striking sedimentary sandstone, shale, and siltstone formations imaginable. The layers of sediment here are estimated to have taken about 4,000 years to be laid down, and the alternating colours and patterns in the layers of rocks are stunningly beautiful.

Day 14 Denmark Strait

Crossing the Denmark Strait to Iceland, search for whale blows and photograph the many seabirds that trail our ship in the ever-present arctic winds.

Day 15 Disembark Reykjavik

During the early morning, we cruise into Reykjavik and disembark at approximately 8.00 am. Farewell your Expedition Team and fellow passengers as we all continue our onward journeys. Transfer options are as follows:

1. Direct to Keflavik Airport.
2. Direct to The Grand Reykjavik (this option is only available if your hotel was booked by Aurora Expeditions).
3. Bus Stop #1 – Ráðhús – City Hall where you can make your own way to city hotels.
4. For late afternoon and evening airport departures, Bus Stop #1 – Ráðhús – City Hall where we will hold your luggage on the coach until your departure to the airport at 1pm. Enjoy free time in the city until your departure.

Note: Do not book flights departing prior to 12.00 pm on the day of disembarkation, as we may experience delays at the conclusion of the voyage.

Find an Expedition

Purpose-built for expeditions to the most remote places on earth.

We drew on centuries of collective experience to map out the *Greg Mortimer*: purpose-built for expeditions to Antarctica and the wildest and most remote places on earth.

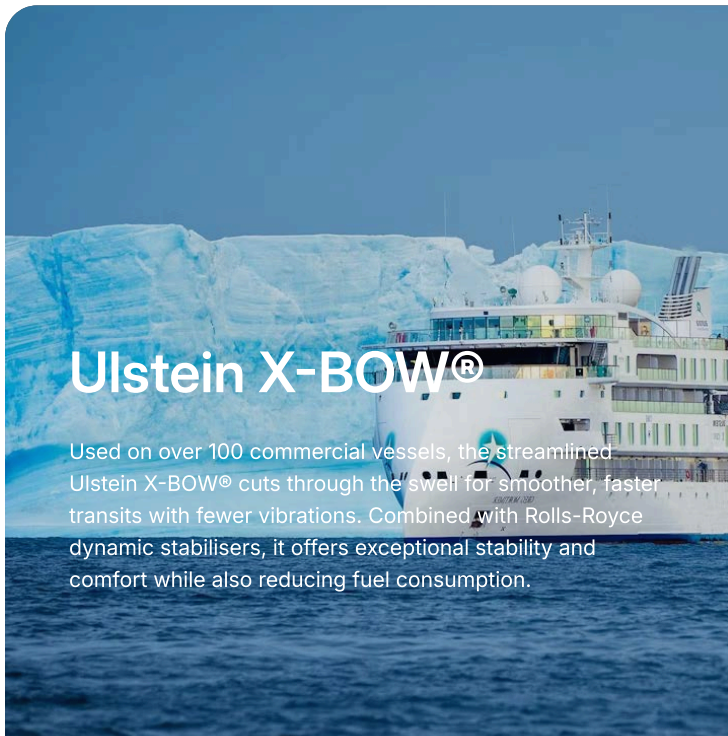

The first passenger ship to feature the revolutionary Ulstein X-BOW®, this allows the ship to cross oceans more comfortably and efficiently, and with expansive observation decks to bring you closer to the environment, inviting communal areas and unsurpassed environmental credentials, the *Greg Mortimer* offers the perfect base camp for adventures at the outer limits of human exploration.

Accommodating a maximum of 130 expeditioners per voyage, it features 76 cosy, comfortable staterooms with a view of the ocean – 85% of staterooms have their own balcony! The *Greg Mortimer* has redefined the future of expedition cruising, and paved the way for our other two vessels, the *Sylvia Earle* and the *Douglas Mawson*.

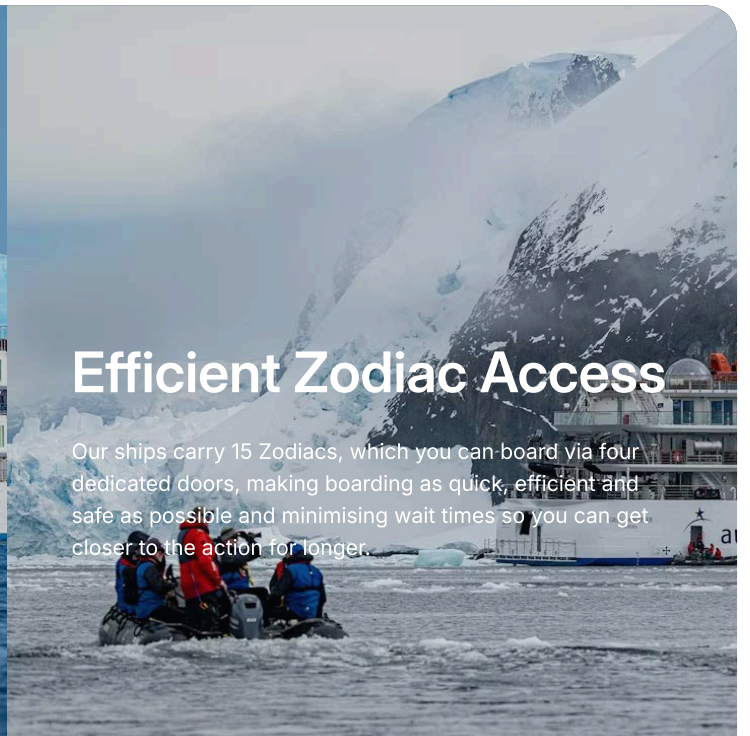

Introducing the Greg Mortimer

Designed for Discovery

Ulstein X-BOW®

Used on over 100 commercial vessels, the streamlined Ulstein X-BOW® cuts through the swell for smoother, faster transits with fewer vibrations. Combined with Rolls-Royce dynamic stabilisers, it offers exceptional stability and comfort while also reducing fuel consumption.

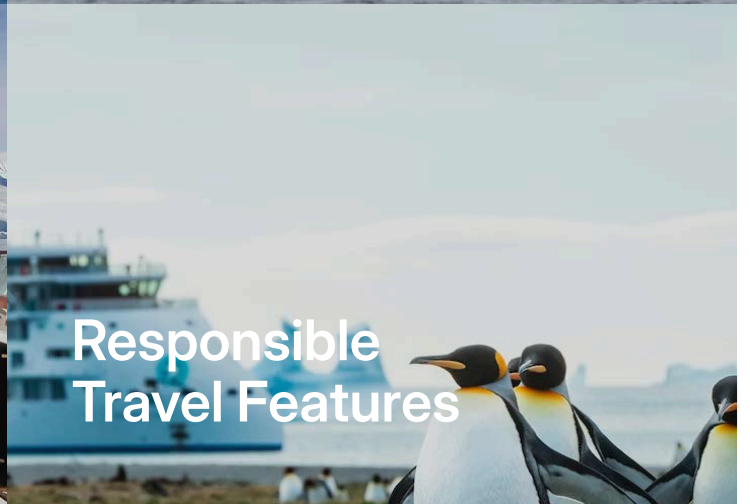

Efficient Zodiac Access

Our ships carry 15 Zodiacs, which you can board via four dedicated doors, making boarding as quick, efficient and safe as possible and minimising wait times so you can get closer to the action for longer.

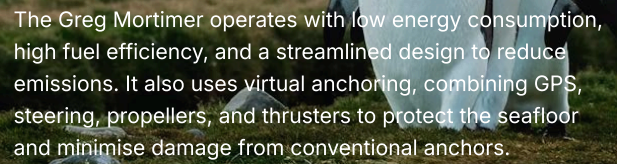

Hydraulic Viewing Platforms

Responsible Travel Features

In addition to onboard observation areas, the Greg Mortimer features unique hydraulic viewing platforms, which fold out for unobstructed views of passing marine life and seabirds.

The Greg Mortimer operates with low energy consumption, high fuel efficiency, and a streamlined design to reduce emissions. It also uses virtual anchoring, combining GPS, steering, propellers, and thrusters to protect the seafloor and minimise damage from conventional anchors.

Activities Platform

The Greg Mortimer is designed to support a range of adventure activities from kayaking and diving to snowshoeing and ski touring, making the transition from ship to sea or shore as smooth as possible.

Safety Features

The Greg Mortimer is equipped with industry-leading safety technology, exceeding requirements for a ship of this size. It features world-class return-to-port equipment that duplicates the propulsion system, ensuring continued operation in the event of engine failure. The ship also has a fully-stocked medical clinic for remote areas.

Onboard Facilities

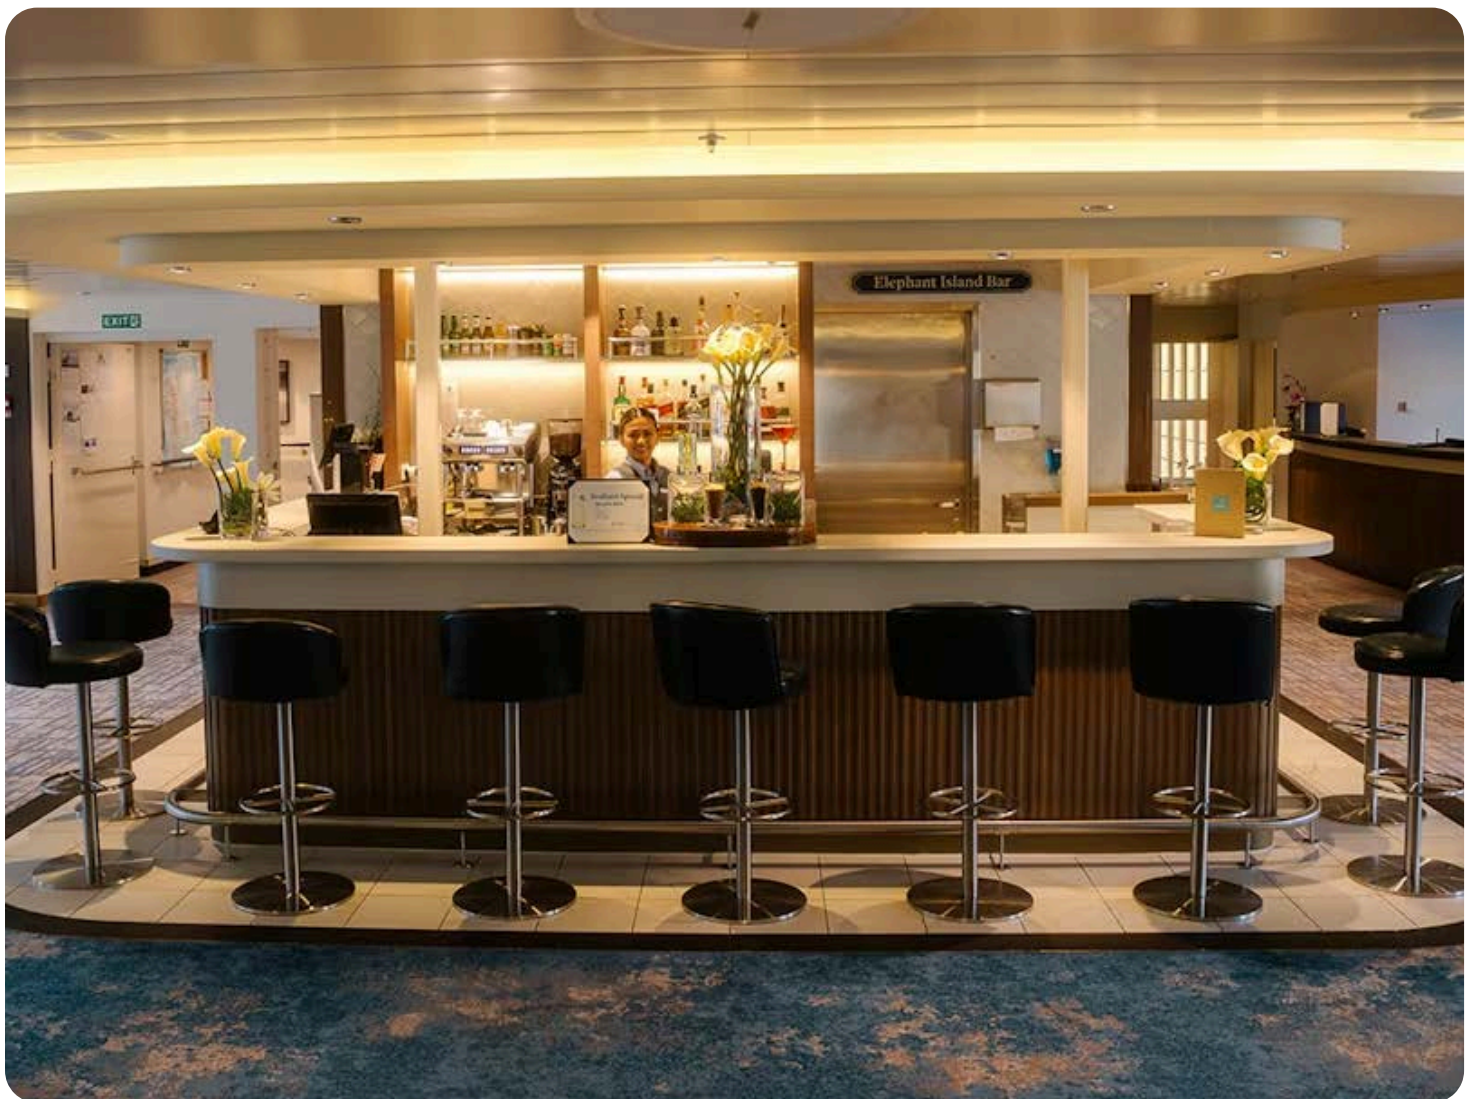

Dining

Meals are a great time to soak up the expedition camaraderie in our open seating dining area. Share stories with your fellow travellers and ask our expedition team questions that may have come up during the day.

Choose from two restaurants: our main venue serving buffet-style family meals with à la carte dinner and our new reservations-required concept restaurant, Tuscan Grill.

Tea, coffee and snacks are available 24 hours a day, and our chefs offer different menu options and courses for each meal. Enjoy the range of house wine, beers and soft drinks included with dinner after a long day in the wild.

We also invite you to join your captain and expedition team for informal Captain's Farewell drinks, with complimentary beverages and cocktail appetisers, followed by a 3 course meal.

Bars and Lounges

Communal meeting areas have always played a major role in fostering the warm camaraderie on board our ships. They are the heart of the expedition, where people meet to share tales from the day, swap photos, keep an eye out for wildlife, and watch the sun go down.

The bars and lounges on board are refined yet inviting places to gather, with floor-to-ceiling windows, offering stunning views, and of course friendly bartenders to shoot the breeze with.

Gym, Sauna & Jacuzzis

In between landings, you are welcome to visit the gym or relax in our sauna, which we highly recommend after the Polar Plunge!

There are also two Jacuzzis on the top outside deck which offer amazing views of the world outside.

State-of-the-art Lecture Facilities

On all expeditions you will meet naturalists and local specialists, who offer presentations on their area of expertise to deepen your understanding of the region you're visiting.

Join the team in the lecture theatre for presentations covering topics as broad as history and culture, biology and climate change, but they have one thing in common: they all aim to engage, educate and entertain.

Library, Observation Lounge & Shop

With floor-to-ceiling windows, the library is a peaceful sanctuary where you can find non-fiction books to read up on the day's destinations, plug in and organise your photos or play board games with newfound friends. Choose from our range of informative nonfiction titles, wildlife guidebooks, travel journals, novels and a selection of children's books and board games.

Wildlife guides, books and binoculars can also be found on the observation lounge on deck 7, the perfect place to relax and watch the incredible landscapes pass by, or spot unique polar wildlife.

If you're in the market for something new- peruse our ship shop, where you'll find expedition essentials, a range of books and maps, souvenirs, stylish expedition apparel and of course Aurora Expeditions merchandise.

Mudroom

No need to take your wet expedition gear back to your stateroom to dry. Keep your stateroom warm and cosy by leaving your outer jackets and pants in the mudroom.

The mudroom is your launchpad for all shore excursions and activities. Here, you will have access to a locker when you can hang your gear up to dry, and store your boots between excursions.

Staterooms and Suites

Captain's Suite

Sleeps: 2

Cabin size: 44.5m² (478.99 ft²)

The largest of all our rooms, the Greg Mortimer's singular Captain's Suite will take you to the polar regions in ultimate style and comfort. Complete with large lounge area, balcony, walk-in wardrobe and en-suite, you'll need to get in early to secure this suite. Plus, enjoy one free pair of binoculars per suite, yours to take home.

Junior Suite

Sleeps: 2

Cabin size: 38.9m² (418.71 ft²)

The Greg Mortimer's four Junior Suites take in some impressive scenery from their vantage points on Deck 7. When you aren't enjoying a landing, you can relax in the suites' separate lounge area, or just watch the world float by from the private balcony. Plus, enjoy one free pair of binoculars per suite, yours to take home.

Balcony Stateroom Superior

Sleeps: 2

Cabin size: 28.2m² - 40.2m² (303.54 ft² - 432.70 ft²)

With a bit more room to stretch the legs, the Balcony Stateroom Superiors are perfect for polar adventurers who travel with plenty of gear. Located on Deck 4 and 6, the Staterooms feature floor to ceiling windows, en-suite bathrooms and a comfortable desk area.

Balcony Stateroom Category A

Sleeps: 2

Cabin size: 24.1m² - 28m² (259.41 ft² - 301.39 ft²)

Our 23 Balcony Stateroom A rooms are our premium room, and the most abundant on board. These staterooms are located in preferred positions on Deck 4 and 6 which provides easy access between Decks via the internal stairs or elevator.

Balcony Stateroom Category B

Sleeps: 2

Cabin size: 23.6m² - 24.8m² (254.03 ft² - 266.95 ft²)

Our 21 Balcony Stateroom B rooms are our standard room, many fitted with interconnecting features making them great for families or groups. These staterooms are located at the fore and aft of Deck 4 and 6.

Balcony Stateroom Category C

Sleeps: 2

Cabin size: 20.9m² - 24.8m² (224.97 ft² - 266.95 ft²)

Our 14 Balcony Stateroom C rooms are our most economical, fitted with all the necessities and comfortable for up to 2 people. These staterooms are scattered throughout Deck 4 and 6.

Balcony Stateroom Category A - Solo

Sleeps: 1

Cabin size: 24.1m² - 28m² (259.41 ft² - 301.39 ft²)

Our 6 Balcony Stateroom A - Solo rooms are our premium room. These staterooms are located in preferred positions on Deck 4 and 6 which provides easy access between Decks via the internal stairs or elevator.

Balcony Stateroom Category B - Solo

Sleeps: 1

Cabin size: 23.6m² - 24.8m² (254.03 ft² - 266.95 ft²)

Perfect for solo travellers, our two dedicated Balcony Stateroom B - Solo cabins are located at the fore of Deck 6, offering a comfortable retreat after a day of adventure.

Balcony Stateroom Category C - Solo

Sleeps: 1

Cabin size: 20.9m² - 24.8m² (224.97 ft² - 266.95 ft²)

Our two Balcony Stateroom C - Solo cabins are our most economical option, offering all the essentials for a comfortable stay. Conveniently located throughout Deck 6, they provide the perfect space for a solo traveller.

Aurora Stateroom Twin Share

Sleeps: 2

Cabin size: 15.8m² - 22.8m² (170 ft² - 245.41 ft²)

The Greg Mortimer features eight Aurora Stateroom Twins featuring portholes, all with private en-suites. Located on Deck 3, they're close to the mudroom and loading platforms, perfect for adventurers who are looking for a comfortable base that's close to the action.

Aurora Stateroom Triple Share

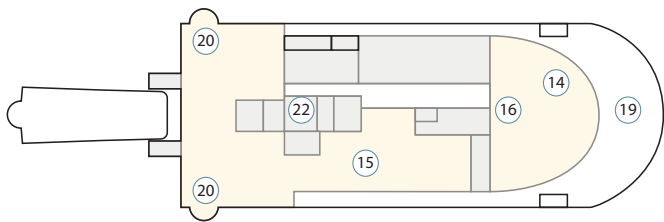

Sleeps: 3

Cabin size: 21.4m² - 22.8m² (230.34 ft² - 245.41 ft²)

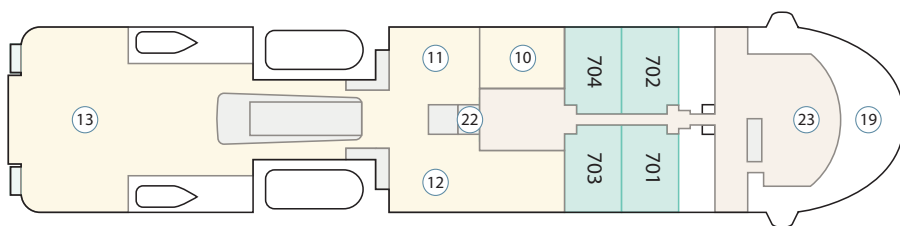

There are six Aurora Stateroom Triples featuring portholes, all with private en-suites. Located on Deck 3, they're close to the mudroom and loading platforms. *Please note the Aurora Stateroom Triples are only available on certain departures.
