SECRETATLAS

EXPEDITION MICRO CRUISES

Because smaller means more freedom.

Dear Explorers,

Let us introduce ourselves.

We are a company founded, owned, and operated by explorers. Many years ago we set our eyes on the beauty of the polar regions and were struck by a feeling like no other.

Inspired by the heroic explorers of the past, we want to share real expeditions with you. Adventures that satisfy our craving to discover a world far bigger than the one we encounter daily – and explore it with appreciation, time, and respect.

We've dedicated ourselves to pioneering carefully crafted Expedition Micro Cruises, unforgettable experiences which encourage you to discover the true magic of the polar regions.

We will forever be grateful to explore such unique and powerful environments. We hope you will feel the same at the end of this journey with us.

Welcome to the Secret Atlas family.

Michele D'Agostino and Mariano Curiel

Secret Atlas owners

Fuelled by the long-lost passion of exploration

At Secret Atlas, we venture into the vast, unpredictable wilderness, where nature leaves a lasting impression. Rather than trying to compete with its vastness or tame its unpredictability, we embrace them. That's why we pioneered the Expedition Micro Cruise, itinerary-free explorations offering the smallest group sizes at both poles.

With just 42 guests, our small ships reach places large vessels can't, allowing for deeper connections, no obstruction to self-discovery, and immersive experiences in the world's most treasured environments.

For us, less is more. Less waiting, more time exploring. Fewer crowds, greater adventure. Join us, and discover the world with purpose.

Following the footsteps of giants...

Scott. Shackleton. Amundsen. Mawson. Bancroft.

When we explore the polar regions, we follow in the footsteps of giants. Their spirit of adventure guides us.

We're adaptable, letting ice, wildlife, and weather shape our evolving itineraries. Our agile Expedition Micro Cruises reach places larger ships can't. They offer both home comforts and the ultimate luxury – the freedom and time to explore.

Leading in responsible travel, we create journeys that inspire self-discovery and deep connections – with nature, each other, and ourselves.

...leaving small footprints.

When you explore the polar regions, you gain a newfound respect for them – and feel an overwhelming urge to protect them.

Explore. Respect. Protect. It's in our DNA.

That's why we travel in small groups. It's more responsible, minimising our footprint and preserving these fragile environments.

And to help with our impact goals, rather than just talking about change, we seek out partnerships that make a real difference.

“We’re set on keeping
the wilderness wild!”

- Mariano Curiel, Secret Atlas partner

Set foot on Antarctica, the fabled seventh continent at the ends of the Earth. It defies all attempts to capture it on page and screen. As the wind howls, the frozen landscape mesmerises, and the magical wildlife surprises, you'll know you've answered the call of the wild.

“I believe it is in our nature to explore, to reach out into the unknown. The only failure would be not to explore at all.”

- Sir Ernest Shackleton

GREENLAND

How do you want to see the world?

There are many ways to explore the polar regions.
But not all are created equal...

The Expedition Micro Cruise concept Not just small. Micro.

Designed by explorers, for explorers, our revolutionary Expedition Micro Cruise concept offers the smallest group sizes at both poles.

- ▶ Genuinely small group sizes at both poles, for the most intimate and transformative experience
- ▶ Expedition leaders and guides with decades of polar experience and hundreds of expeditions between them
- ▶ No queueing for Zodiac cruises and shore landings
- ▶ Itineraries that evolve to maximise opportunities presented by ice, wildlife, and weather.
- ▶ Comfortable accommodations, where there all luxury is the freedom and time to explore

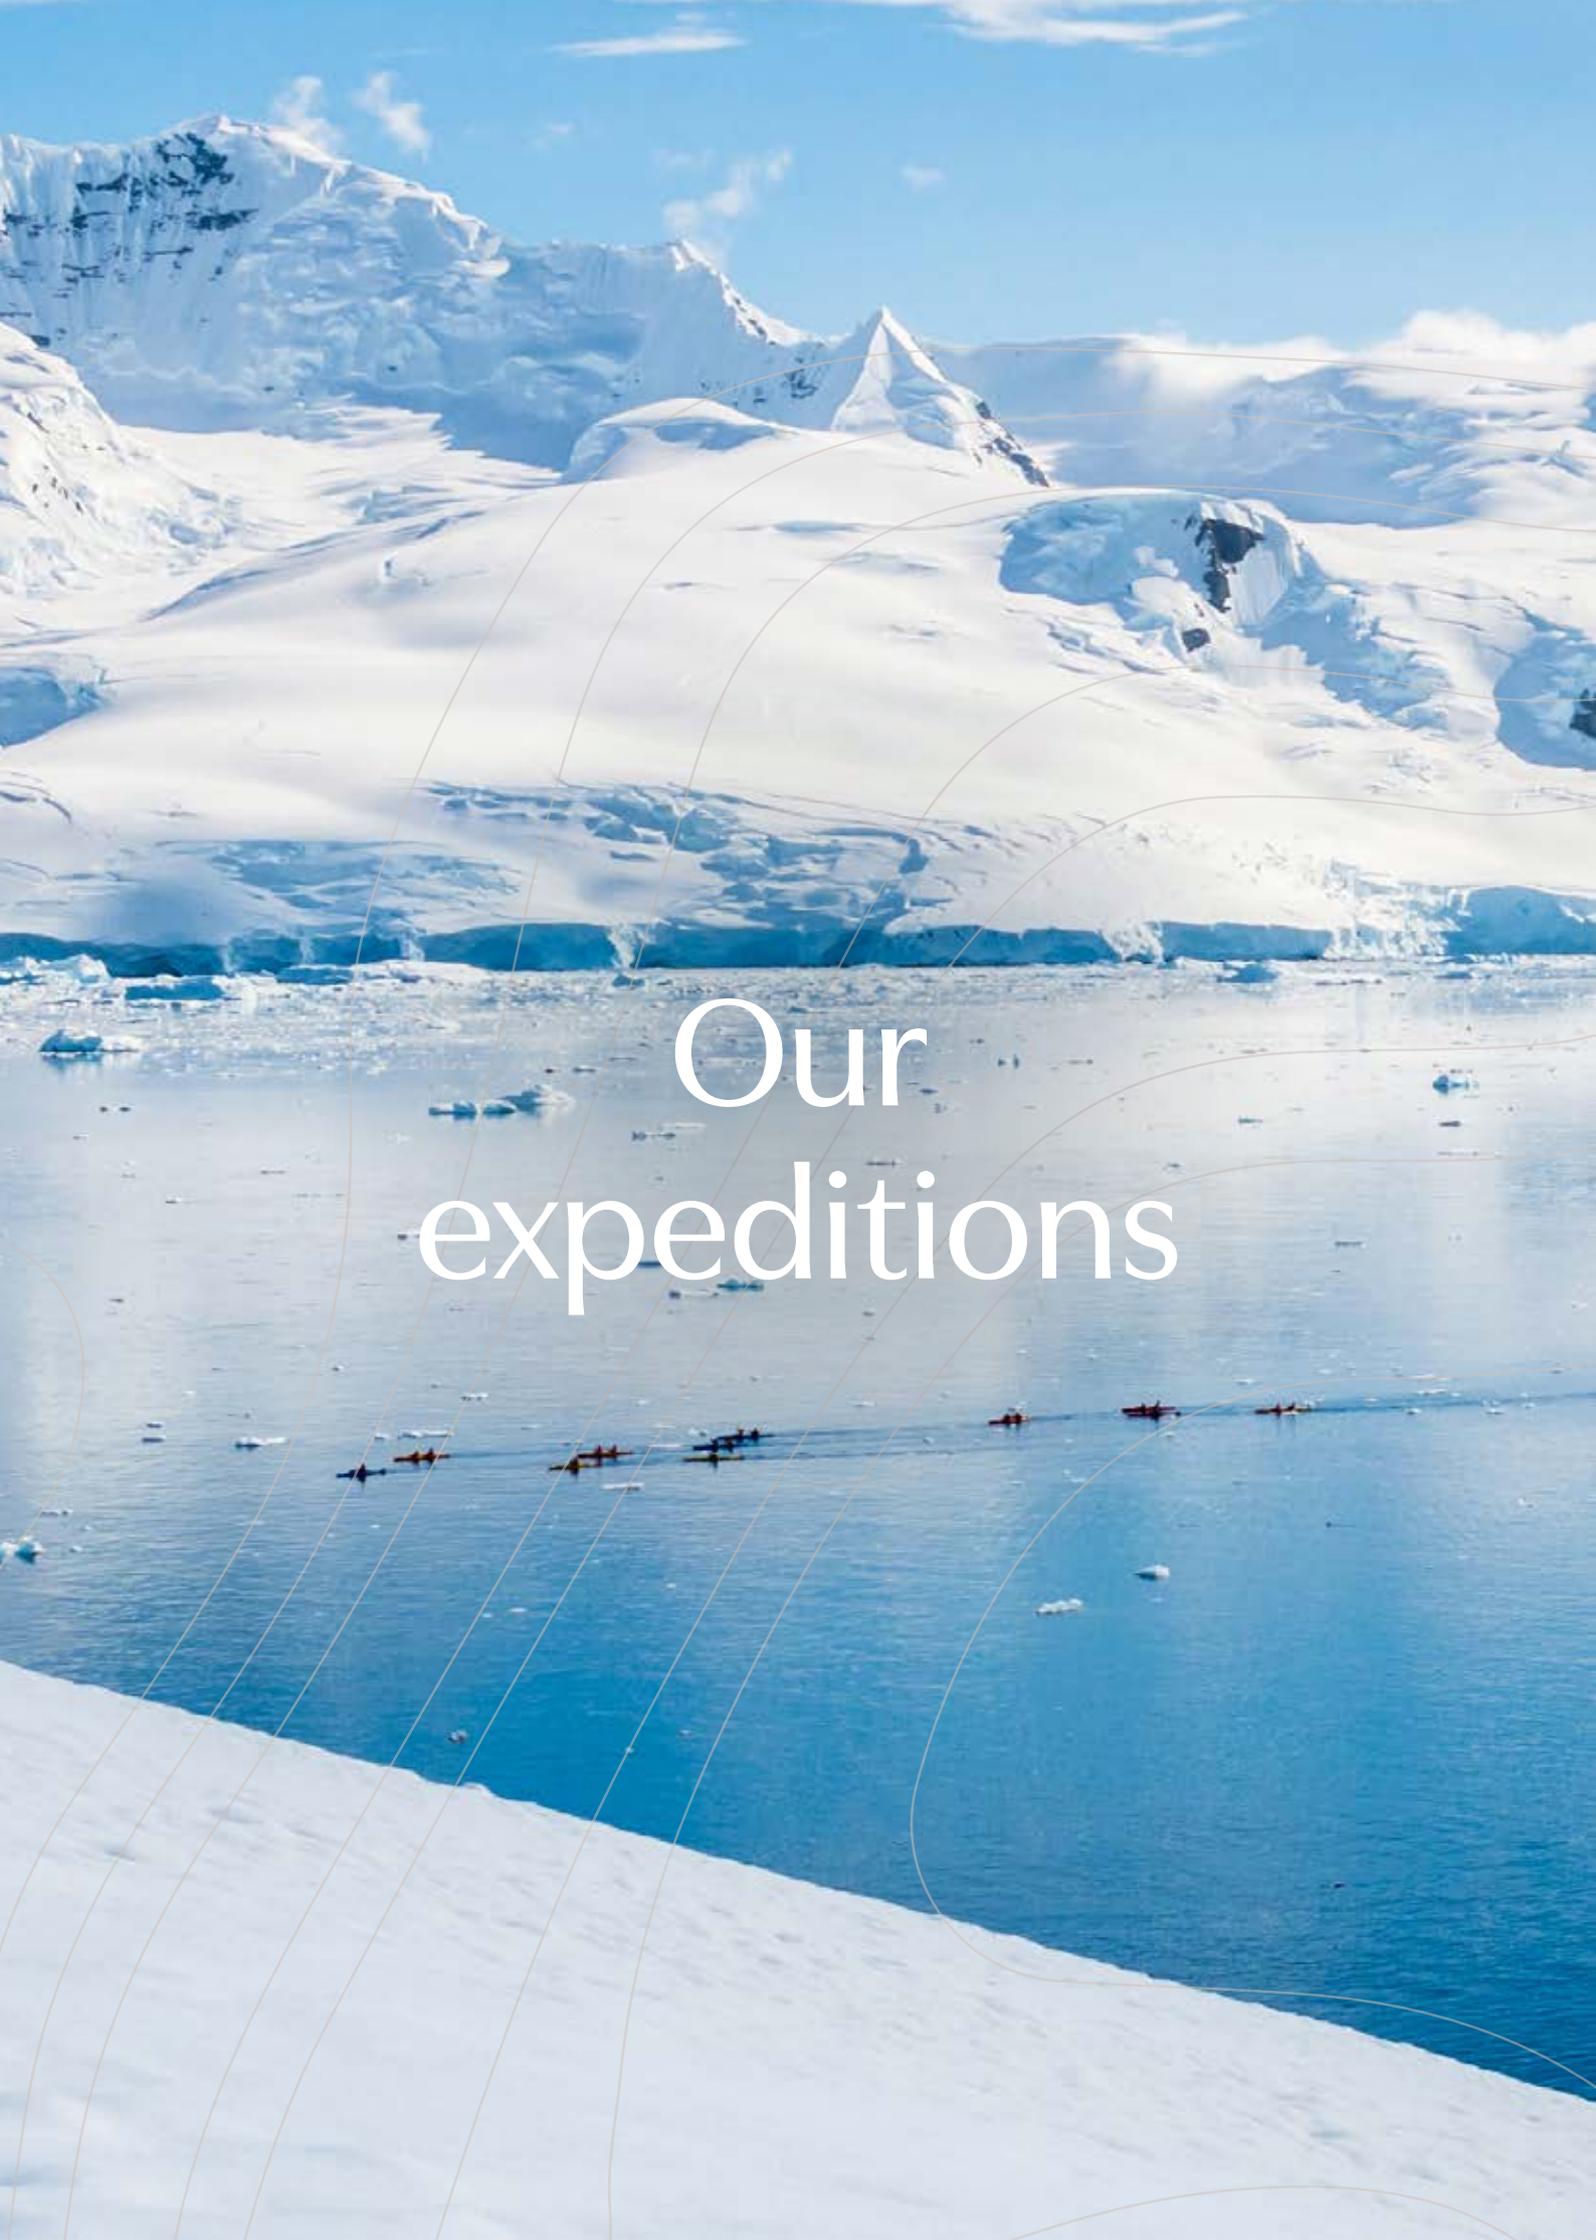

Explore the polar regions the way they deserve

We invite you to disconnect from the modern world, grow connections with each other, and be transformed in nature at its unfiltered, undiluted, brilliant best.

The Expedition Micro Cruise concept is at the heart of all our adventures – our original Expedition Micro Cruises, photography expeditions, and private charters.

A scenic view of a snowy mountain range overlooking a blue body of water with icebergs and kayakers. The mountains are covered in snow and have sharp peaks. The water is a deep blue, and there are many icebergs of various sizes floating in it. In the foreground, a snow-covered slope leads down to the water. Several kayakers are visible in the water, paddling across. The sky is a clear, bright blue with a few wispy clouds. The overall scene is peaceful and majestic.

Our expeditions

Expedition Micro Cruises

See the world at its best on the original Expedition Micro Cruise.

Inspired by intrepid expeditions of the past, we only sail with small groups—the smallest in Antarctica—on agile, strong ships that go deep into the pack ice, where other vessels can't.

The biggest luxury we provide is the freedom to explore nature—without limits, filters, or time constraints. Our truly small ship expeditions have no fixed itinerary. Instead, we listen to nature and take the opportunities it presents, creating transformative experiences in the planet's last great wildernesses.

Private Charters

Choose your own adventure.

Tell us where you want to go, when you want to travel, and what you want to experience, and we'll work with you to create a life-changing expedition. We'll lend you our expertise—gained across hundreds of polar expeditions—along with a ship, crew, and guiding team.

We love collaborating with our guests. But if you want to leave it to the experts, that's OK, too. Just choose your "crew" of family, friends, and colleagues, and we'll take care of the rest.

FAMILIES

The Antarctic wildlife safari

Bring your family or clan together for a life-changing polar adventure, uncovering the awe-inspiring wildlife that thrives at the edge of the world in epic landscapes.

Watch some of the planet's largest colonies of penguins waddle across icy beaches, spot seals lounging on drifting icebergs, and witness humpback or orca whales slicing through the Antarctic Ocean. Sail past towering icebergs and into ancient glacier fjords, where every moment seems like you're in a nature documentary.

Antarctica's untouched beauty awakens the heroic explorer in everyone, from curious children to lifelong adventurers. It's a world where every iceberg, wildlife encounter, and Zodiac landing will feel like your first discovery.

PHOTOGRAPHERS

The Antarctica golden light season

Have your camera ready to capture Antarctica drenched in the enchanting glow of its early-season golden light. This fleeting spectacle transforms the icy wilderness into an atmospheric wonderland.

As vast colonies of wildlife burst to life, the low sun sets the snow-capped peaks and glaciers ablaze with amber light, creating a magical canvas for every photographer's lens. There's no better time to experience this frozen continent at its most dramatic and pristine.

With expert photography guidance, you and your fellow explorers will be able to capture this stunning natural display in all of its illuminating and striking contrasts. Your guide will help you and your fellow explorers will make the most of every golden moment—capturing breathtaking images and creating memories that last a lifetime. This is Antarctica at its most inspiring.

ADRENALINE JUNKIES

The ultimate ski and sail

Sail up and ski down: this exhilarating private expedition combines the best of skiing and sailing in one.

Touch down on remote shores, hike up breathtaking mountains, and carve your way down untouched slopes back to the coast... where your private ship will be waiting to whisk you and your party off to the next unforgettable run.

No crowded slopes, no queueing for the lift. Just ski, sail, repeat.

Then it's back to the ship for the après...

“The luxury of being alone in nature and getting close to animals is worth it. This trip is also great for slowing down and reconnecting with the wild. ...It is a much more adventurous feeling on a small ship and you are really immersed in nature.”

— Julia, Secret Atlas guest in South Georgia
